New Prestige X-Line range unveiled at Cannes Yachting Festival

The new Prestige X-Line range has been unveiled at the Cannes Yachting Festival.

“The first boat to be produced in the range will be the X70,” says Nick Hatfield, Ancasta Prestige Brand Manager. “This ground breaking new 70-foot mini superyacht will have its debut at Cannes in 2020.”

The X70 redefines space, light and luxury with an emphasis on hand selected materials and exceptional fit and finish. Prestige Yachts and Garroni Design have created a revolution in space and movement by moving the side decks to the flybridge enhancing circulation and optimising room on the main deck.

Redistribution and blending together of interior and exterior living spaces greatly increases the size of the cockpit and ensures entertainment areas flow throughout the vessel.

In addition, there is a Beach Club fully integrated into the aft platform providing further entertainment space and proximity to the water.

This flagship yacht of the X-Line range is designed to take you where you want to go. The Volvo IPS technology provides smooth, fuel efficient cruising with exceptional manoeuvrability.

“The X70 is the most innovative yacht of her category and her generation, enabling people to experience an entirely new way to live on the water,” continues Nick. “We are very excited about the unveiling of the new range and are looking forward to discussing it with interested parties and potential new owners.”

Over the next few years, this state-of-the-art motor yacht will be joined by smaller and larger models to complement the X-Line range.

If you would like to be one of the first to register interest in this incredible new line of luxury motor yachts, then please contact Nick Hatfield on nickhatfield@ancasta.com
