WEST SYSTEM Technical Team supports boat owners with 'how to use epoxy' demonstrations at Southampton International Boat Show

The WEST SYSTEM® Technical Team will be running a series of live epoxy demonstrations on its stand (**J401, Ocean Hall**) at the Southampton International Boat Show, showing visitors how to get the most from its epoxy products. The Show takes place from 10th to the 19th September.

The Technical Team will be on hand throughout the Show to answer any questions about WEST SYSTEM products. Our epoxy experts will be able to offer advice on visitors' projects and the use of epoxy for boat building, repair and maintenance.

The team will also be able to talk to visitors about the PRO-SET® range of versatile epoxies for high-performance composites. PRO-SET epoxy is used in the

production of the supremely successful Maguire Boats Exocet Moth, Winder Boats, Merlin Rocket and at Ovington Boats.

Live demonstrations will be held at 12:00 and 14:30 each day on the Wessex Resins stand (J401).

"It's about supporting the end user," says David Johnson, sales director and technical advisor. "We share our knowledge readily and widely. WEST SYSTEM and PRO-SET Epoxy are fantastic to work with once you know a few key basics, it can transform boat repair for so many people, so coming to these demonstrations will give a great basis for people to start preparing for next season."

WEST SYSTEM and PRO-SET products are market-leading and trusted by both professional boat builders and home project hobbyists worldwide.

Wessex Resins & Adhesives manufactures WEST SYSTEM and PRO-SET epoxy products in the UK under license from Gougeon Brothers Inc. and distributes these leading brands across the whole of Europe, Africa and the Middle East via a well-respected distribution network.

ENDS

Notes to Editors:

- Wessex Resins and Adhesives manufactures WEST SYSTEM, PRO-SET and ENTROPY epoxy products in the UK under license from Gougeon Brothers Inc., and distributes these leading brands across the whole of Europe, Africa and the Middle East via a well- respected distribution network.
- Wessex Resins and Adhesives provides international support for the world-renowned WEST SYSTEM, PRO-SET and ENTROPY epoxy brands.
- Since Michigan boatbuilding brothers Meade, Joel and Jan Gougeon first experimented with the bonding power of epoxy over 50 years ago, the WEST SYSTEM® and PRO-SET® product ranges have become the epoxies of choice for private boat owners, boat manufacturers, chandlers and naval engineers throughout the world.
- Wessex Resins has been working in partnership with Gougeon Brothers, Inc. for more than 36 years, manufacturing WEST SYSTEM, PRO-SET and ENTROPY epoxies here in the UK.
- Whether an epoxy is needed for laminating, bonding, coating, tooling or infusion, the combined breadth of WEST SYSTEM, PRO-SET and ENTROPY products will provide the solution. WEST SYSTEM and PRO-SET have passed extensive quality testing. They are certified by Lloyds Register and DNVL.
